10 Cent Sale

Spring 1930

Dansville, N. Y.

Fall 1930

POMONA

SHIP C. O. D.

We understand that it is not always convenient for all our patrons to send cash with order. Please do not put off ordering on account of this. We require no cash with order but will ship C. O. D. with the understanding that you pay the mailman, expressman or freight agent promptly upon arrival. We were the first nurserymen to ship without requiring some cash with order.

If Cash Is Sent With Order, We Allow
8% Discount

On All Orders Received for Spring and Fall Shipment
No Discount Allowed When Shipped C. O. D.

Order Trees Early

Wherever you live it pays to order early. Send in your order just as soon as you know what you want. POMONA METHOD OF SHIPPING C. O. D., requiring no cash with order makes it convenient for you to do this, and we want you to get your trees and plant them as soon as weather conditions and the preparation of your land will permit, either spring or fall.

Our Shipping Season

WE PACK AND SHIP ALL WINTER TO SOUTHERN STATES. Our regular Spring packing and shipping season usually opens here February 1st and continues into the month of May. The planting season is not regulated by any particular month or day, nor by the state of vegetation where the planting is to be done, but BY THE CONDITION OF THE TREES TO BE PLANTED. Hence, trees can be sent with safety from Dansville, N. Y., to localities several degrees south, even if they do not arrive until the ordinary transplanting season in that locality is past.

True To Label

YOU KNOW THE MEANING OF THIS EXPRESSION. As we understand it a "true to label" Baldwin tree is a tree that grows up a Baldwin and a man who plants a "true to label" Northern Spy does not go out some years later and pick crab apples from its branches. The three little words have come to mean with us accomplishment of purpose. They signify INTEGRITY, EXPERIENCE and KNOWLEDGE.

Guarantee

In the event that any nursery stock sold by us should prove untrue to name under which it is sold, we hereby agree, on proper proof of such untruthfulness to name, to rectify and replace the same or refund the purchase price. Except for such liability, and in respect to all nursery stock sold by us, we give no warranty, express or implied, as to description, quality, growth, productiveness or any other matter, and in case of error in variety the purchase price shall be the measure of damages, if order is accepted by us.

When Possible to Grow Better Trees
Pomona Will Grow Them

THIS BLANK MATERIALLY AIDS IN FILLING YOUR ORDER PROMPTLY AND ACCURATELY

Forward about

DATE RECEIVED

We aim to keep our varieties true to name and will replace, on proper proof, all that prove otherwise, or refund the purchase price, but we do not give any warranty, expressed or implied, and it is mutually agreed between the purchaser and ourselves that we shall not at any time be held responsible for greater amount than the purchase price.

POMONA UNITED NURSERIES, DANVILLE, N. Y.

10c SALE

Forty Years Dealing Direct with the Planter

IT'S A PLEASURE to present with this catalogue, our latest, which portrays as clearly as possible the knowledge we have gained about trees. Trees have been our life work—we have grown up with them. We have learned to plant them, cultivate them, and to call them by name.

In the development of such a business as we now conduct representing forty years of painstaking labor, there has been a vast store of knowledge "laid by." It is our intention to place this reserve fund at the disposal of our customers and that they may receive prompt and careful attention we have INSTITUTED our SERVICE DEPARTMENT, by means of which the buyer can feel that he will receive absolutely impartial and as nearly accurate information on planting as it is possible for us to give, at any time.

Fresh Dug Trees

POMONA'S fresh dug trees are budded on the best whole rooted imported French stock, propagated by us from certified trees and bearing orchards, free from disease, insect pests and true to name. Our C. O. D. offer enables you to take advantage of ordering now. Yesterday is gone, forget it. Today is here, use it. Never leave till tomorrow what you can do today.

What a Pomona Ten Cent Sale Is

It is a sale where you buy one tree at our special list price, then an additional tree of the same variety for TEN CENTS. To illustrate: The price of BALDWIN APPLE TREE is 30c. You buy one tree at this price and by PAYING 10c MORE, OR 40c, YOU GET TWO TREES. Every tree offered is of standard quality just the same as we have been selling at the regular price every year. This is our second year to develop a special sale of 10 cent trees. Rather than spend large sums of money in other ways to convince you of the quality of our trees, we are spending it on this sale so as to enable us to sell you a high standard tree offered in this catalogue for 10 cents. It costs us a large amount of money to get new customers, but the sacrifice in profit is justified, knowing the stock offered will please you.

Our Special 10c Sale Price Covers Stock As Listed in this Catalogue

If you order 10 trees, we allow you to select 5 varieties of 2 trees each.
If you order 50 or more trees, not less than 10 trees of a variety.

NOTICE

Before placing orders for fruit trees elsewhere we would suggest that you send us your list of varieties for our special quotation as there are many varieties that we have in surplus and are able to give a much lower price on than our published prices in quantities.

RED ASTRACHAN—THE BEST EARLY DESSERT APPLE

DUCHESS OF OLDENBURG—Large, round; streaked red on yellow; tender, juicy, pleasant; a kitchen apple of best quality and esteemed by many for dessert. Tree a vigorous, fine grower, and an abundant bearer. Succeeds well in the Northwest, where most varieties fail. We find Duchess the most valuable commercial variety, a sure cropper, hardy as an oak, having survived in some instances when all others died. August and September.

King of Tompkins County. One of the standard varieties grown for commercial purposes, and gives the greatest satisfaction when top-worked on some hardier variety. The fruit is of a bright red color, large and uniform. The flesh is yellowish, crisp, tender, juicy and sub-acid, and of the best quality.

GRIMES' GOLDEN. Medium to large size; skin golden yellow, sprinkled with gray dots; flesh crisp, tender, juicy, sprightly, very good to best. Grown in the South and Southwest. Jan. to Apr.

RED ASTRACHAN—This hardy early variety is well known. Fruit large, roundish, nearly covered with deep crimson, handsome, juicy, good, highly esteemed on account of its fine appearance, earliness, and hardness. Aug.

YELLOW TRANSPARENT—Early variety. Tree an upright grower and a very early and abundant bearer. Fruit of good size; skin clear white, turning to a pale yellow; flavor acid and very good. Ripens from ten days to two weeks earlier than Early Harvest.

STAYMAN'S WINESAP—Fruit medium, large; skin green and yellow, red-striped, flesh yellow, firm; quality excellent.

YELLOW TRANSPARENT

Pomona 10¢ Sale Price { 2 Year Trees, 4 to 5 feet high, 30 cents each, }
 { 2 for 40 cents, 10 for \$2.00, 100 for \$15.00. }

Mailing size trees 3 to 4 ft., add 3¢ to each tree to cover cost of mailing.

Propagated Where the Best Trees Grow

McINTOSH APPLE

McINTOSH—Not equalled in quality and flavor by any other variety. Due to its very high quality and its exceedingly attractive appearance, it commands a ready sale and a fancy price in all the large eastern markets. Has held the record for high price for years in the Boston, New York, and Chicago markets. Rapidly making a place for itself as one of the leading if not the leading commercial apple of the east. The fruit is very attractive in appearance, of bright deep red color, which in highly colored specimens is almost purplish-red overspread with a thin lilac bloom. Fruit above medium in size, flesh white, firm, very crisp, fine grained, tender, very juicy. Sprightly subacid in flavor with a characteristic perfume and aroma. Comes into bearing about the fourth year and is a reliable cropper, yielding good crops biennially and sometimes annually. October to December.

ROME BEAUTY—Keeps in good condition till May and June. Large, round, mottled and striped in different shades of red; flavor and quality away above the average; appearance and size are its valuable points; always sells and always brings good prices. With a well-merited reputation, Rome Beauty is a variety Eastern orchardists should plant largely. Good grower, blooms late, bears heavily every year, is adapted to a wide range of soils, elevations and conditions.

DELICIOUS RED—This apple is appropriately named for it is of handsome appearance as well as high quality, rivaling Spitzenburg. It is oblong in shape and its bright red and yellow skin is very handsome. This apple has been largely planted in the Northwest and ranks high in commercial orcharding. Since it has made good in the apple growing sections someone has said it is a gem. It is the best in quality of any apple I have tasted.

LOBO (McIntosh Seedling)—Above medium size; roundish conical; stem short to medium, color bright crimson; skin thick, tough; flesh white with traces of red, fine grained, tender, juicy; subacid, sprightly, pleasant, good flavor and quality. October.

We consider Lobo a very promising variety for central and northern New Jersey. Under our conditions Lobo hangs to the tree much better than McIntosh, and also develops a brighter, more attractive color, comes into bearing early, and is very productive. We have held Lobo in cold storage in good condition until the first of February. (From New Jersey Exp. Station Report.)

Pomona United Nurseries, Dansville, N. Y.

Washington, N. J., May 4, 1929.

I wish to thank you for the bushes received yesterday. All the stock you sent me this year was first class. You can count on me for what plants I need in the future, I am,

Very truly yours,
A. S. HARLE.

Pomona 10¢ Sale Price { 2 Year Trees, 4 to 5 feet high, 30 cents each,
2 for 40 cents, 10 for \$2.00, 100 for \$15.00 }

Mailing size trees 3 to 4 ft., add 3¢ to each tree to cover cost of mailing.

PLATE OF THE RELIABLE BALDWIN APPLES

BALDWIN. A great market apple, very productive of fair handsome fruit. No variety yields larger crops or bears shipment better, or is more attractive in color, size and shape, than the Baldwin. It is esteemed as an eating apple, and for cooking. Thousands of barrels of this fruit are exported to England annually. For a commercial orchard it can be relied upon. Large, bright red, crisp, juicy and rich; tree vigorous, upright and productive.

NORTHERN SPY—This cut shows how perfectly these may be grown, with proper care. This variety has long been a favorite in commercial sorts in northern New England, New York, Michigan, etc. It is superior to some other standard varieties in flavor and quality and commands top prices. Large, striped and quite covered on the sunny side with dark crimson; and delicately coated with bloom. Juicy, rich, highly aromatic, retaining its freshness of appearance and flavor till July. A remarkably rapid, erect grower, and a great bearer. One of the finest late keeping apples. December to March.

Wagener—Medium to large; deep red in the sun; flesh firm, sub-acid, and excellent; very productive, bears very young. December to May.

Cortland. Is as large as that of McIntosh, or larger; round to somewhat conical in shape. In color it is a bright red blushed with darker red splashed and striped with carmine and more or less overlaid with a deep purplish bloom. The flesh is white, often with a pinkish tinge, fine, crisp, tender, juicy, subacid and aromatic. The trees are large, vigorous, upright-spreading, very hardy, productive and healthy. Three weeks later than McIntosh.

NORTHERN SPY APPLE

Pomona 10¢ Sale Price { 2 Year Trees, 4 to 5 feet high, 30 cents each, }
 { 2 for 40 cents, 10 for \$2.00, 100 for \$15.00 }

Mailing size trees 3 to 4 ft., add 3¢ to each tree to cover cost of mailing.

Propagated Where the Best Trees Grow

WEALTHY HARDY WINTER APPLE

WEALTHY—This is a beautiful, hardy winter apple, originating in Minnesota. Fruit large, roundish; skin smooth, oily, covered with a dark red. Flesh white, tender, juicy, vinous, sub-acid; quality very good. This is one of the few most desirable varieties for Minnesota, Wisconsin, Iowa, Nebraska, as well as the Eastern and Middle States. In season it differs somewhat, according to locality; in New York and neighboring states its season is December to February, and owing to its early bearing qualities it is planted largely as a filler.

THE RELIABLE R. I. GREENING APPLE

RHODE ISLAND GREENING—This large and superior winter apple is famous over a large extent of country, and is more highly prized for cooking and eating than any other variety. It is a good keeper but will keep better if picked early.

Pomona 10¢ Sale Price { 2 Year Trees, 4 to 5 feet high, 30 cents each,
2 for 40 cents, 10 for \$2.00, 100 for \$15.00 }

Mailing size trees 3 to 4 ft., add 3¢ to each tree to cover cost of mailing.

LOMBARD PLUMS—TREE HARDY AND PRODUCTIVE

RED JUNE—A consensus of the opinions of those who have had actual experience with the variety shows that it closely follows Abundance and Burbank in popularity. The color is a mottled garnet-red overlaid with thin but very distinct and delicate bloom. July.

YORK STATE PRUNE—A superior strain of the German Prune. Known in some sections as Fellemborg or Italian prune. The most widely grown of all plums. In our opinion the most profitable prune for orchard purposes and a variety that should be in every home garden. It is finely flavored whether eaten out of hand, stewed or cured as a prune. In cooking it changes to a dark wine color, very attractive in appearance, with a most pleasant sprightly flavor.

LOMBARD (Purple)—A great favorite as it adapts itself to widely different soils and climates and does well where other varieties would not thrive. Robust, healthy, productive and a regular bearer. Extremely hardy. Skin dark purplish red overspread with a thick bloom. Flesh yellowish, firm and sweet. Freestone. Ripens in late August.

MONARCH—A very handsome, large, rich, purple plum that has attained popularity more quickly than any other plum of recent introduction. Flesh golden yellow, juicy and sweet. Trees hardy and productive. Ripens in October.

Abundance—The chief asset, which has given the variety its great popularity, is its name, abundance in fruit. Tree bears early in season being a pinkish red changing to a darker red mottled with thin bloom. August.

BRADSHAW—The trees grow large and well formed, bear regularly and heavily. The plums are large, attractive in appearance, being a light purplish red changing to dark reddish at maturity, which occurs in July.

Burbank—Is handsomely colored dark red over a yellow ground. It is a very desirable variety for home plantations in New York, bearing early in July.

Yellow Egg—Golden yellow covered with thick bloom.

NIAGARA—Of large size and first rate flavor; color dark blue. Good bearer; not liable to rot. Ripens about August 1st.

YORK STATE, THE LARGEST AND LEADING PRUNE

Pomona 10¢ Sale Price { 2 Year Trees, 4 to 5 feet high, 45 cents each, }
 { 2 for 55 cents, 10 for \$2.25, 100 for \$19.50. }

Mailing size trees 3 to 4 ft., add 3¢ to each tree to cover cost of mailing.

Propagated Where the Best Trees Grow

The Best Varieties of Apricots

THE leading characteristics of the apricot are extreme hardiness, early bearing, productiveness, and freedom from disease. Every garden should have one or more trees. In the selection of choice garden fruits it is quite indispensable.

J. L. Budd—Tree a strong grower and profuse bearer, fruit large, white with red cheek; sweet, juicy, with a sweet kernel, as fine flavored as an almond; the best late variety.

Moorpark—Large size, surface orange-red, with a deep orange-red cheek, with a rich, high flavor.

Alexis—Very hardy; an abundant bearer; yellow, with red cheek; large to very large; slightly acid, rich and luscious. July.

MOORPARK APRICOT

Pomona 10¢ Sale Price { 2 Year Trees, 2½ to 3 feet high, 65 cents each,
2 for 75 cents. }

The Best Variety of Quinces

ORANGE QUINCE, THE BEST FOR JELLIES AND PRESERVES

ORANGE. Large, roundish; bright golden yellow; cooks tender and is of very excellent flavor. Valuable for preserves or flavoring; very productive; the most popular and extensively cultivated of the old varieties. October.

Pomona 10¢ Sale Price { 2 Year Trees, 3 to 4 feet high, 65 cents each,
2 for 75 cents. }

Select Varieties of Dwarf Fruit Trees

Dwarf Apple Trees

We can supply the following varieties: Yellow Transparent, Baldwin, McIntosh, Duchess, Delicious, Wagener, Lobo, Yellow Belleflower, Wealthy, Gravenstein, R. I. Greening, Cortland, and Red Astrachan. 2 Year Trees, 3 to 4 ft. high, 60 cents each, 2 for 70 cents.

Dwarf Pear Trees

We offer the following list of varieties: Bartlett, Seckel, Clapp's Favorite, Duchess and Anjou. 2 Year Trees, 3 to 4 ft. high, 50 cents each, 2 for 60 cts.

Dwarf Peach Trees

We are offering the best two varieties: Elberta and Rochester. 1 Year Trees, 3 to 4 ft. high, 70 cents each, 2 for 80 cents, 2 to 3 ft. high, 50 cents each, 2 for 60 cents.

If ordered by mail add 3¢ to each tree to cover cost of mailing.

ELBERTA—AMERICA'S GREATEST SHIPPING, MARKET AND CANNING PEACH

Belle of Georgia—Large; white, with red cheek; flesh white, firm and of excellent flavor. Tree very productive. Early July.

ELBERTA—A valuable, large peach of good quality. The best orchard variety, and valuable also for planting in the garden. Elberta is hardier in bud than many varieties, therefore a more uniform cropper. Elberta is large, yellow, with red cheek, juicy and high-flavored, flesh yellow; freestone. Season medium early.

ROCHESTER EARLY YELLOW PEACH

ROCHESTER (Yellow, Freestone)—A remarkable new early peach which seems to combine the high quality of the Early Crawford with the productiveness of the Elberta. Generally recognized as the best early variety. Coming into the market as it does about two weeks ahead of Early Crawford, it commands not only the highest price but a ready sale. An early bearer, often producing fruit the year after planting. Not only an ideal home orchard variety but an excellent commercial peach as well. Makes a great combination with Elberta. The fruit is large, yellow mottled with red in color, with thick, firm, juicy flesh, rich and sweet in flavor. The trees are hardy, vigorous and productive. Ripens here the middle of August.

Pomona 10¢ Sale Price { 1 Year Trees, 3 to 4 feet high, 40 cents each, }
 { 2 for 50 cents, 10 for \$2.50, 100 for \$12.50. }

Mailing size trees 3 to 4 ft., add 3¢ to each tree to cover cost of mailing.

Propagated Where the Best Trees Grow

EARLY CRAWFORD PEACHES (REDUCED)

CRAWFORD'S EARLY—A magnificent large yellow peach of good quality. Tree vigorous and prolific; its size, beauty and productiveness make it one of the most popular varieties. Season beginning of September. This valuable peach has long been a favorite for large size, beauty and quality of fruit. Most people when they buy peaches ask for Crawford's.

J. H. HALE (Yellow, Freestone)—A notable variety of recent introduction, unusually large in size of fruit and very handsome. Largely advertised as a rival to Elberta for commercial honors, but reported in many sections as not prolific enough to compete with that grand old variety. Of a deep golden-yellow color overlaid with bright carmine. Flesh firm, fine-grained and good in quality.

CRAWFORD'S LATE—Of large size; skin yellow or greenish yellow, with dull red cheek; flesh yellow. Tree vigorous; moderately productive; one of the finest late sorts.

NIAGARA PEACH—The fruit of the Niagara peach is much like that of Early Crawford in appearance, being large, oval, yellow with brilliant red cheeks. The flavor is rich and piquant, reminding one of the very best peaches he ever ate. Season medium early.

Carman—A very hardy peach, ripening at same time as Early Rivers, yet almost as large as Elberta. Skin pale yellow with blush on sunny side; flesh white, tender, sweet and melting. Ships well. August.

CHAMPION—Tree and fruit buds extremely hardy—has stood eighteen degrees below zero and produced a full crop the following

summer. The flavor is delicious, sweet, rich and juicy; skin creamy white with red cheek.

CHAMPION PEACH—CREAMY WHITE FREESTONE

Pomona 10¢ Sale Price { 1 Year Trees, 3 to 4 feet high, 40 cents each, }
 { 2 for 50 cents, 10 for \$2.50, 100 for \$12.50. }

If ordered by mail add 3¢ to each tree to cover cost of mailing.

BARTLETT KING OF STANDARD PEAR TREES—PLANT THEM

BARTLETT—Large, coloring when fully ripe to waxy yellow with red blush; juicy, melting, highly flavored. The tree bears early and abundantly. May be grown either as dwarf or standard, but succeeds best as standard. Aside from the fact that it bears early, regularly and abundantly, the Bartlett pear is justly popular on account of its size, beauty and excellence. It originated in Berkshire, Eng., about 1770. Aug. and Sept.

Seckel—Small size; yellowish russet, with red cheek; flesh whitish, buttery, very juicy and melting. A prolific bearer. Sept. to Oct.

Kieffer—Large to very large, skin yellow, with a light vermillion cheek; flesh brittle, very juicy, with a marked musky aroma; good quality. It is unfortunate that the merits of this fruit have been underestimated from the haste in which it is hurried to market in an immature condition, and often before it has attained the proper size.

ANJOU—For late fall and early winter use, there is no better variety. Quality equal to Bartlett. A close second to Bartlett in public favor. Distributes its fruit well, and stands up under a load better than Bartlett.

Pomona 10¢ Sale Price { 2 Year Trees, 4 to 5 feet high, 35 cents each,
2 for 45 cents, 10 for \$2.00, 100 for \$18.00. }

Mailing size trees 3 to 4 ft., add 3¢ to each tree to cover cost of mailing.

Propagated Where the Best Trees Grow

CLAPP'S FAVORITE. HIGH QUALITY, PROFIT MAKING PEAR

CLAPP'S FAVORITE—Large size; pale lemon yellow; flesh fine grained, juicy, melting, rich and buttery, earlier than Bartlett and resembling the Flemish Beauty in growth. A good grower and very productive.

Lawrence—Trees healthy, hardy and very productive. Fruit large; skin yellow, covered with brown spots. Flesh whitish, rich, buttery, and aromatic.

Wilder—Handsome, melting, sweet, pleasant, with small core, fine grained, tender and juicy. Greenish yellow with brownish red cheeks. Aug.

Sheldon—Large size; roundish; greenish yellow cheek; a vigorous and strong grower and a good bearer while quite young. Oct. to Nov.

Duchess d' Angouleme—Very large; of greenish yellow, with patches of yellow and a dull red mostly covered with thin light russet; very juicy, melting, sweet and vinous. Oct. to Nov.

Beurre Bosc—Extra large size; deep russet yellow; high flavored and delicious. It is a favorite. Ripens in October and can be marketed at that time, but for best returns should be kept and marketed during the holiday season.

ANJOU WINTER PEAR—DELICIOUS FLAVOR

Jacksonville, Ill., Oct. 29th.

Pomona United Nurseries,

Please send me your catalogue. The Fruit from trees bought of you took the first premium at the Morgan County Fair.

Very truly yours, C. O. Bayha.

Pomona 10¢ Sale Price { 2 Year Trees, 4 to 5 feet high, 35 cents each, }
2 for 45 cents, 10 for \$2.00, 100 for \$18.00. }

Mailing size trees 3 to 4 ft., add 3¢ to each tree to cover cost of mailing.

EARLY RICHMOND CHERRIES (REDUCED SIZE)

EARLY RICHMOND—One of the most valuable and popular cherries, unsurpassed for cooking purposes. It is the good old variety that yields such marvelous crops in the gardens. The most hardy of all varieties, uninjured by the coldest winters. Tree slender in growth, with a roundish spreading head, exceedingly productive. Ripens through June. The cherry tree bears almost every year, and is an easy fruiter. For many years Dansville has been the largest cherry growing section of the U. S., while the majority of nurserymen are buyers instead of growers. The cherry is greatly improved by cultivation and the use of fertilizers. Fertilizers make the tree vigorous and fruit less liable to decay.

ENGLISH MORELLO—A VALUABLE LATE CHERRY

ENGLISH MORELLO—Without doubt one of the most valuable of this class. English Morello is late and much liked by canning establishments. One of the safest cherries to plant.

Pomona 10¢ Sale Price { 2 Year Trees, 3 to 4 feet high, 50 cents each, }
 { 2 for 60 cents, 10 for \$3.00, 100 for \$27.50. }

If ordered by mail add 3¢ to each tree to cover cost of mailing.

THE MOST POPULAR CHERRY, LARGE MONTMORENCY, HARDY AND PRODUCTIVE

MONTMORENCY (Large)—The most popular of all hardy cherries for market and home use. This cherry is planted largely in all parts of the country. The fruit is in great demand by canning factories and others, and sells at fancy prices. Montmorency has been growing in popularity all over the country each year, so that it has been almost impossible to grow trees fast enough to keep up with the demand. It is of large size, light red in color, stem rather short. The tree is very hardy and a vigorous grower. The trees bear fruit soon after planting. I visited a friend last summer who has a large orchard of Montmorency cherries in bearing. The trees have been planted only a few years, and yet they were laden with the most beautiful fruit.

Best Sweet Cherries

BLACK TARTARIAN (Black Oxheart)—Very large; bright purplish black; half tender; juicy, very rich. Tree a remarkably vigorous and erect grower, and an immense bearer. One of the most popular varieties in all parts of the country. Ripe last of June.

Lambert—A valuable Sweet Cherry of the largest size. Skin dark purplish red, almost jet-black when ripe. Flesh firm, rich and juicy. Tree hardy, a strong grower and an enormous bearer.

Gov. Wood—One of the best. Clear, light red; tender and delicious. Tree vigorous and productive. End of June.

NAPOLEON CHERRY (White Oxheart)—Fruit very large, oblong, pale yellow, with a bright red cheek in the sun. Flesh very hardy, brittle, reddish at stone, juicy, and sweet. Tree a vigorous and erect grower, very productive. Early in July.

NAPOLEON (WHITE OXHEART)

Pomona 10¢ Sale Price { 2 Year Trees, 3 to 4 feet high, 50 cents each, }
 { 2 for 60 cents, 10 for \$3.00, 100 for \$27.50. }

If ordered by mail add 3¢ to each tree to cover cost of mailing.

The Best Varieties of Grapes

THE GRAPE is one of our most delicious fruits. Contrary to common opinion it does not demand a special or particular kind of trellis. We have seen vines bear by the bushel growing on a garden or yard fence. Hardy, thrifty, free of disease, the grape is our standby.

The grape is the most healthful of all fruits, and is most highly esteemed for its many and varied uses. Grapes can be grown by any one who has a garden or yard, and a little time to give to it. The vines can be trained up the side of a building, or a garden fence or over an arbor, but the more profitable way is to grow them over a wire trellis.

Pruning. Annual and careful pruning is essential to the production of good grapes. If the roots are called upon to support too much wood, they cannot bring to maturity a fine crop of fruit. By proper pruning you concentrate the vigor of a vine into a smaller number of canes and clusters, which it can perfect. The pruning should be done from November to March, while the vines are entirely dormant and before the sap starts.

Agawam (Roger's No. 15)—Berries very large, thick skin, pulp soft, sweet, sprightly, very vigorous, ripens early.

Diamond—Leading early white grape, ripening before Moore's Early.

Pocklington—One of the largest and most showy white grapes of the Concord type.

Catawba—Berries large, round; when fully ripe of a dark copper color.

Lindley (Roger's No. 9)—Berries medium to large, flesh tender, sweet and aromatic.

Salem (Roger's No. 53)—Bunch large, compact; berry large, round, coppery red, tender, juicy. Ripens with Concord.

NIAGARA WHITE—Occupies the same position among the white varieties as Concord among the black; the leading profitable market sort. Bunch and berries large, greenish white changing to pale yellow when fully ripe.

Campbell's Early (Black)—Strong grower, with large, healthy foliage; productive, its keeping and shipping qualities are equaled by no other early grape.

Diamond White—The leading early white grape, ripening before Moore's Early. White, with rich yellow tinge; juicy, few seeds, almost free from pulp, excellent quality.

Chas. A. Green White—Claimed by the introducer to be a new and valuable variety, a vigorous grower and an enormous yielder of very large and beautiful clusters.

McPike—This mammoth black grape has been exhibited in all parts of the country, its great size, fine flavor and beauty creating quite a sensation.

MOORE'S EARLY (Black)—Bunch and berry large, round with heavy bloom; vine exceedingly hardy. Its earliness makes it desirable for an early market.

Brighton—Perhaps the best red grape in cultivation. Bunch large, compact; strong grower and very productive; quality good.

Concord—Black. Bunch large, shouldered, compact; berries large, covered with a rich bloom, skin tender, but sufficiently firm to carry well to distant markets; flesh juicy, sweet, pulpy, tender; vine a strong grower, very hardy.

MOORE'S EARLY BLACK GRAPE

PRICE FOR ALL VARIETIES OF GRAPES

Strong 2 yr. Vines, 20 cents each, 2 for 30 cents, 10 for \$1.50, 100 for \$15.00.

Mailing size 2 year Grape Vines, add 3¢ to each vine to cover mailing.

Best Varieties of Blackberries

THIS profitable fruit should be planted for garden use in rows five feet apart, with plants three feet apart in rows; for market, in rows six feet apart, with plants three feet apart in the rows. Give the plants the same cultivation as for raspberries.

ELDORADO. The best all-round berry yet produced, combining nearly all the good qualities found in a blackberry. The vines are very hardy and vigorous, enduring the winters of the far Northwest without injury, and their yield is enormous. The berries are large, jet black, borne in large clusters and ripen well together; they are very sweet, melting, have no hard core and keep for eight or ten days after picking.

SNYDER. Extremely hardy; enormously productive; medium size.

Wilson's Early. Large size, black, quite firm, rich, sweet and gold. Ripens early and matures its fruit rapidly; retains its color well after picking.

Minnewaska. Wonderful, hardy, productive, good blackberry, has not been forgotten by us, or our old patrons. Its principal points are hardiness, excellent quality, earliness, and continued bearing and productiveness.

Early Harvest. The earliest blackberry and valuable for market. The canes are strong and upright in growth and enormously productive. Berries sweet and of the highest quality.

Erie. Bush vigorous; berry large, round; good quality; early and productive.

RATHBUN. Bush perfectly healthy, vigorous, but not a high growing sort; very rarely suckers from the roots. Fruit of largest size, highest quality.

Agawam. Ripens earlier than other kinds, and has a flavor similar and equal to the wild berry. Very hardy.

Ancient Briton. Bush hardy and very productive. One of the best old sorts, and still grown in immense quantities by successful market gardeners.

Blower. Large size, jet black, good shipper, best quality, unexcelled productiveness are the main characteristics of this splendid new sort.

No. 2418

CERTIFICATE

STATE OF NEW YORK

Department of Farms and Markets

Certificate of Inspection of Nursery Stock

This is to certify that the stock of Pomona United Nurseries, of Dansville, County of Livingston, State of New York, was duly examined in compliance with the provisions of article 14 of the Farms and Markets law, and was found to be apparently free from any contagious or infectious disease or diseases, or the San Jose scale, or other dangerously injurious insect pest or pests. This certificate expires Sept. 1, 1930.

Dated Albany, N. Y., Sept. 1st, 1929.

BERNE A. PYRKE, Commissioner.

By GEO. ATWOOD, Director Bureau of Plant Industry.

Price for all varieties of Blackberries, Strong No. 1 Plants. By Express 10 for \$1.00, 25 for \$1.75, 100 for \$6.50, 1000 for \$45.00. By Mail (Postpaid) 10 for \$1.15, 25 for \$1.95, 100 for \$7.35.

Garden Roots—Asparagus and Rhubarb

ASPARAGUS USED FOR DECORATION
DURING SUMMER

PRICE FOR ALL VARIETIES OF ASPARAGUS NAMED ABOVE

Extra Strong 2 Year Roots 25 for \$1.00, 100 for \$2.00, 1,000 for \$12.00.

Rhubarb (Pieplant)

The first thing in the spring to furnish material for pie and sauce. Its health-giving, tonic properties make it invaluable as a spring regulator. Easy to grow. Should be in every home garden. Plant in rows 4 feet apart with roots 3 feet apart in row.

Myatt's Linnaeus—The best variety for general use. Stems large, tender and of refined flavor. Yields abundantly. Prices of strong two-year roots, 15 cents each; 10 for \$1.50; 100 for \$10.00.

Horse Radish

English or Common—The variety in general use. Will stand a great deal of hardship and persist in soil year after year. Does best in deep, rich, cool soil. As high as ten tons have been received from an acre. Plant in rows 3 feet apart and 1 foot apart in row.

Price Strong Sets: 10 for \$1.00; 100 for \$6.00.

New Washington Asparagus—This exceedingly resistant variety was developed by the United States Department of Agriculture. It is the finest of the large type asparagus. Its quick growing habit makes it extremely tender. It is vigorous in growth, of a deep green color, with a purple tinge, a decidedly good variety for the commercial grower and unexcelled for the home garden. The flavor is excellent, having a peculiar and pleasing sweetness. Should give this variety a trial. Price, Extra Strong 2 Year Roots, 25 for \$1.00; 100 for \$3.00; 1000 for \$20.00.

- 1 White Oxheart

5 Trees, 2 Yr., 3 to 4 Ft. (by express) \$1.50
5 Trees, 2 Yr., 3 Ft. high (by mail) \$1.65

RASPBERRIES

WILL do well on any soil that will produce a good corn crop. Land should be thoroughly prepared and well enriched; ground bone is one of the best fertilizers. Keep well cultivated and free from weeds and suckers. As soon as they have done bearing, cut out the old wood to give more vigor to the young canes. Plant in rows five feet apart, three feet apart in rows.

Red Varieties

St. Regis Everbearing. A wonderful new variety of Red Raspberry, bears fruit the first season, bears for four months, beginning about June fifteenth. The second crop of berries is borne on the ends of the new canes and ripens about the middle of August and continues until frost.

CUTHBERT. Large, conical; deep rich crimson; firm, of excellent quality. Vigorous grower, entirely hardy and immensely productive. The best raspberry for general culture.

Marlboro. The best early red raspberry. Hardy and productive.

LOUDON. Ripens with the earliest and hangs to the last. Immensely productive and a fine shipper. Very hardy and does not sucker nearly so much as other red raspberries.

Purple Varieties

COLUMBIAN. Very large, often an inch in diameter; adheres firmly to stem and will dry on the bush if not picked. Very large, dark reddish purple, rich, juicy and delicious.

KANSAS BLACK RASPBERRY

CUTHBERT RASPBERRY

Black Varieties

KANSAS. Largest size, strong, vigorous grower, hardy, bearing immense crops. Size of Gregg.

Black Diamond. One of the best for home and market use. For drying and evaporating it excels all others. The fruit is large and handsome.

Cumberland. Plants vigorous, hardy and productive; fruit large. Mid-season.

Gregg. Plants vigorous, hardy and productive; fruit above medium to very large.

PLUM FARMER. Berry large and very productive, a great favorite in Western New York. A fine picker and one of the best market sorts.

Ohio. A very strong growing hardy sort; fruit nearly as large as Mammoth Cluster; more productive.

PRICE FOR ALL VARIETIES OF RASPBERRIES

Strong No. 1 Plants, 10 for 75 cents, 25 for \$1.25, 100 for \$4.00, 1000 for \$35.00

If ordered by mail, 10 for 85 cents, 25 for \$1.35, 100 for \$4.50

Best Varieties of Strawberries

CORSICAN, (REDUCED), THE FINEST HOME GARDEN BERRY

NOTE:—Do not order strawberry plants sent by freight. Our patrons order from 50 to 500 trees, and 500 or more strawberry plants by freight. Now the trees should go by freight and the strawberries by express, or small lots by mail. In all cases when desired by mail, add postage at rate of 20c per 100. Always state plainly that the strawberry plants are to be sent by express or mail.

SENATOR DUNLAP. A well tested, early variety, one of the safe sorts to plant everywhere. Fruit good size, regular form, beautiful bright red, glossy, firm, splendid keeper and shipper, excellent quality, one of the best for canning.

BRANDYWINE. A very late and firm berry; a good shipper, good canner, a good all around strawberry. Season medium late.

CORSICAN. Is a great strawberry for many reasons. First, it is the biggest berry; second, it is the brightest and best in color; third, it is a great yielder, and producer; fourth, and the most important of all, the foliage is exceedingly vigorous and leathery.

SAMPLE. Late, of large size and yields enormous quantities of high quality bright red berries. A standard shipping variety.

Price for all varieties of Strawberries (By express)

25 for \$1.00, 100 for \$1.50, 1,000 for \$10.00.

If ordered by mail, 25 for \$1.10, 100 for \$1.70.

Best Varieties of Currants

THE CURRANT is one of the most productive and best paying small fruit that we have. There is, we believe, more profit to the acre in currants than in any other small fruit.

WILDER. (Red)—Very large; deep red; bunches long. Plants erect, stout, vigorous and productive.

Fay's Prolific. (Red)—A cross between Cherry

and Victoria. Of large size, fine flavor, and claimed to be twice as prolific as the Cherry.

RED CROSS. A strong growing variety. Cluster long; berry medium to large, bright red; quality good to best. Very productive.

Price for all varieties of Currants. 2 year bushes, 35 cents each, 2 for 45 cents. 10 for \$2.25, 100 for \$15.00.

Best Varieties of Gooseberries

Plant in good rich soil and give a liberal dressing of manure every season. Regular pruning every year is essential for the production of fine fruit.

HOUGHTON—Small to medium; roundish, oval, pale, sweet, tender, very good; plants spreading; shoots slender.

2 Year Bushes 45 cents each, 2 for 55 cents.

DOWNING. Large, handsome pale green, and of splendid quality for both cooking and table use; bush a vigorous grower.

2 Year Bushes 50 cents each, 2 for 60 cents.

Currant and Gooseberry Bushes, by mail add 3 cents to each bush ordered.

CALIFORNIA PRIVET HEDGE

At Special Low Prices

California Privet—A vigorous-growing variety, of fine habit, thick, glossy, nearly evergreen leaves. Of all ornamental hedge plants this is the most highly prized. If cut to the ground one or two years after planting, it makes a very thick hedge right

from the bottom, sending up many strong shoots. The Privet in all its varieties deserves attention as an ornamental plant. It is almost an evergreen, and grows freely in all soils; compact and regular in its form, and bears shearing to any extent. The leaves are a rich green, and will remain on the plants up to Christmas, and if they are a little sheltered they will keep almost all winter.

POMONA LOW PRICE FOR CALIFORNIA PRIVET, 2 YEAR, WELL BRANCHED

12 to 15 in.	10¢ each	2 for 20¢	10 for \$.75	100 for \$3.00	1000 for \$25.00
18 to 24 in.	15¢ each	2 for 25¢	10 for 1.00	100 for 5.00	1000 for 35.00

If sent by mail add 3 cents each to cover cost of mailing.

Williamstown, Pa., May 6, 1929.

Pomona United Nurseries, Dansville, N. Y.

Have just come from my Farm and seen all my young trees that I bought from you sprouting nicely. I must say I never saw nicer trees at any price, and surely am well pleased with them. I can graft too, but what's the use when I can buy such good trees so cheap.

Very respectfully,

P. E. PALMER.

Hyndman, Pa., April 5, 1929.

Pomona United Nurseries, Dansville, N. Y.

Rush me another order of California Privet at \$3.00 per 100. Those you sent me are the finest money value I have ever seen.

Yours sincerely,

A. B. JENKINS.

Homer, N. Y., May 28th.

Pomona United Nurseries, Dansville, N. Y.

I want to compliment you on the pleasant, candid "wordy way" which you have in answering letters. Not everyone who dictates can express themselves in such a manner which carries not only conviction but soothes and gives confidence.

W. G. CRANDALL.

Select Varieties of Upright Flowering Shrubs

HARDY BUSH HYDRANGEA, PANICULATA GRANDIFLORA

Hardy Bush Hydrangea (Paniculata Grandiflora)—We urge our friends to plant the Hydrangea. Plant it for the following reasons: It is hardy, enduring the severest winters outdoors without protection. It is easily transplanted, not one in a thousand dying. It never fails to blossom the first year planted; no matter how small the plant, it immediately buds out in great profusion of flowers. When the specimens first open they are greenish white, later they turn to a pure white, and still later to a delicate pink.

PRICE STRONG 2 YEAR BUSHES, 18 to 24 inches, 45 cents each, 2 for 55 cents, 10 for \$2.75.

BARBERRY [Berberis] Red Leaved Barberry. (Berberis Thunbergi Atropurpurea). A highly important introduction among shrubs, giving us for the first time a practical easily grown shrub of medium height, with good, distinctly red foliage. This must prove a boon to all types of landscaping, where studied contrasts are to be worked out with the shrub foliage depended on for colors. Atropurpurea is an exact reproduction of Thunbergi in every way—habit, leaf-formation and fruiting, but—whereas the original is a deep green from spring until fall, this variety starts off in its first foliage a warm bronzy red; the heat of summer intensifying its red brilliancy; autumn adding other tints to its richness. The abundant scarlet berries persist throughout the winter along the spiny twigs. A sunny exposure is necessary to bring out and retain its full red color.

Price, strong 2 year Bushes, 12 to 18 inches, 60 cents each, 2 for 70 cents.

Japan Barberry. (Berberis Thunbergi.) There is no shrub in existence so generally planted or more practical for all purposes where beautiful foliage effect is desired than this. It is dwarf growing, uniformly bushy and rounded in form, susceptible to formal pruning, with small, numerous leaves densely covering the thorny twigs. These give it paramount importance for use as a filler, and edging for shrubbery groups; as a foundation screen in front of porches; and, above all, as a compact, impassable, hardy, low hedge for confining lawns or dividing properties. Although variable in accordance with seasonable conditions, the autumn foliage is scarlet or bronze, and the branches studded with crimson fruits.

Price, strong 2 year Bushes, well branched, 18 to 24 inches, 20c each; 10 for \$1.75; 100 for \$15.00. 2 to 3 feet, 25c each; 10 for \$2.00; 100 for \$18.00.

If ordered sent by mail add 3¢ to each bush to cover cost of mailing.

Propagated Where the Best Trees Grow

SPIRAEA VAN HOUTTEI—THE MOST POPULAR HARDY SHRUB

SPIRAEA VAN HOUTTEI—Better known and more largely planted than any other shrub. An extremely graceful shrub with long, drooping branches completely covered with flat clusters of white flowers in May and June. When in blossom a hedge of Spiraea Van Houttei is a sight long to be remembered. Cannot be too highly recommended. We consider it the best general purpose shrub.

Price 18 to 24 in., 45c each, 2 for 55 cents.

Weigela (Candida)—Profusion of pure white flowers blooming in June. Very bushy in its growth.

Price 18 to 24 in., 50c each, 2 for 60 cents.

Weigela, Variegated-Leaved (Fol. Variegated)—Leaves bordered with yellowish white, finely marked, flowers bright pink.

Price 18 to 24 in., 50c each, 2 for 60 cents.

Weigela Florabunda (Crimson Weigela)—The flowers are dark crimson, with white stamens projecting from them, reminding one somewhat of Fuschia flowers. It blooms in the spring with other Weigelas, but if plants are topped off after young growth has been made, they bloom profusely in the fall. One of the best.

Price 18 to 24 in., 50c each, 2 for 60 cents.

If ordered sent by mail add 3¢ to each shrub to cover cost of mailing.

Weigela Eva Rathke—Flowers brilliant crimson; a beautiful, distinct, clear shade.

Price 18 to 24 in., 50c each, 2 for 60 cents.

Weigela Rosea (Rose-colored Weigela)—An elegant shrub, with fine rose-colored flowers; of erect, compact growth; blossoms in June.

Price 18 to 24 in., 50c each. 2 for 60 cents.

WEIGELA ROSEA

DEUTZIA, PRIDE OF ROCHESTER

DEUTZIA—This valuable species of plants comes to us from Japan. Their hardiness, luxuriant foliage and profusion of attractive flowers, render them deservedly among the most popular of flowering shrubs. The flowers are produced in June in racemes four to six inches long.

Deutzia, Double Flowering (Crenata)—Flowers double white, tinged with rose. One of the most desirable flowering shrubs in cultivation.

Deutzia, Pride of Rochester—A new variety raised from *Deutzia Crenata*, and exceeding all others in size of flowers, length of panicles, profusion of bloom and vigorous habit; a charming acquisition to the list of *Deutzias*.

Deutzia Lemoinei—Flowers pure white, borne on stout branches of upright growth. Dwarf and free flowering, much prized for cemetery planting and in front of taller shrubbery.

Deutzia, Slender Branched (Gracilis)—A charming variety introduced by Dr. Siebold. Flowers pure white and so delicate that they are very desirable for decorative purposes.

LILACS—Best beloved of all the old time garden shrubs; whose flowers never fail to charm with their delicate beauty or refresh the soul with their fragrance.

Lilac, Purple—The well-known variety, one of the best. A good grower; flowers and young wood fragrant; purple.

Lilac, White—A very desirable contrast to the purple; those who have one should have the other.

Snowball, Common—Flowers white, in clusters, very attractive when in bloom, May to June.

Snow Berry—An old time shrub. Produces clusters of pure white berries which remain nearly all winter.

Golden Elder—Bright yellow foliage, which affords pretty contrast with other shrubs.

Butterfly Bush. Seems to attract butterflies in large numbers. It produces long, graceful stems which terminate in tapering panicles of beautiful lilac-colored flowers that are of miniature size and borne by the hundreds on a flower head which is often ten inches long.

Shrub and Rose Collection No. 17

10 Assorted Varieties for \$3.85

- 2 Spiraea Van Houttei
- 1 Butterfly Bush
- 1 Deutzia Crenata
- 1 Hydrangea P. G.
- 1 Deutzia, Pride of Rochester
- 1 Althea Red
- 1 Crimson Rambler Rose
- 1 Paul Neyron Rose
- 1 Gruss an Teplitz

10-2 Yr. Bushes, 18 to 24 in. for \$3.85

By mail, postpaid \$4.25.

PRICE FOR ALL SHRUBS LISTED ON THIS PAGE

Strong 2 Year Bushes 18 to 24 inches, 45 cents each, 2 for 55 cents.

If Shrubs are ordered by mail add 3 cents to each shrub to cover cost of mailing.

SPIRAEA ANTHONY WATERER

SPIRAEAS—A class of low, compact, easily grown flowering shrubs, vigorous and hardy as a class, with blossom periods extending over a wide range of seasons. We offer the following varieties:

Spiraea Anthony Waterer—This beautiful variety has the same habits as its parent, the Blumalda. It blooms about the close of June, continuing throughout the entire season. It is useful for edging, planting in masses, or as a single specimen where a low, bushy shrub is required.

Spiraea Billardi (Billiard's Spiraea)—Rose colored, blooms nearly all summer.

Spiraea Prunifolia (Bridal Wreath)—Very double, showy, pure white flowers.

Spiraea Blumalda—New, and considered one of the finest of this class. Flowers brilliant pink, with variegated foliage.

Spiraea Callosa Alba—A white flowering variety of dwarf habit; very fine, remains in flower all summer.

SYRINGA, MOCK ORANGE

BUTTERFLY BUSH GROWING IN NURSERY ROWS

Spiraea Thunbergii—(Thunberg's Spiraea D.)—Of dwarf habit and rounded, graceful form; branches slender and somewhat drooping; foliage narrow.

PRICE FOR ALL SHRUBS LISTED ON THIS PAGE

Strong 2 Year Bushes 18 to 24 inches, 45 cents each, 2 for 55 cents.

If Shrubs are ordered by mail add 3 cents to each shrub to cover cost of mailing.

DOUBLE FLOWERING ALTHEA

Syringa, Golden-Leaved (P. Foliis Aureis)—A beautiful new variety with bright yellow foliage, which affords pretty contrasts with other shrubs, especially with the purple-leaved variety.

Price, 18 to 24 in., 90c each, 2 for \$1.00.

Quince, Japan Scarlet (Cydonia)—Has bright scarlet crimson flowers in great profusion, early spring; one of the best hardy shrubs; makes a beautiful, ornamental hedge.

Price, 18 to 24 in., 75c each, 2 for 85 cents.

Calycanthus (Sweet Scented Shrubs)—Flowers purple, very double and deliciously fragrant; remains in bloom for a long time.

Price, 18 to 24 in., 50c each, 2 for 60 cents.

Syringa—European Fragrant or "Mock Orange" (Philadelphia Coronarius)—A well-known very hardy shrub, with showy white flowers which are very fragrant.

Price, 18 to 24 in., 50c each, 2 for 60 cents.

If shrubs are ordered by mail add 3 cents to each shrub to cover cost of mailing.

Double Flowering Althea (Rose of Sharon)—One of the most showy flowering shrubs; strong, erect growing, with large bell-shaped, double flowers of striking color, borne abundantly in August and September.

Double Red Althea—(Rubra flore pleno.)

Double Purple Althea—(Purpurea flore pleno.)

Double White Althea—(Alba flore pleno.)

Price, 18 to 24 in. 50 cents, 2 for 60 cents.

Althea, Tree Form—In red, white and purple. Mention colors when ordering.

Price, 3 to 4 ft., \$1.35 each, 2 for \$1.45.

Fringe, White—Fringe-like, fragrant white flowers in May; has purple colored ornamental fruit.

Price, 18 to 24 in., \$1.75 each, 2 for \$1.85.

Hydrangea Arborescens Grandiflora Alba (Hills of Snow)—This hardy American shrub is the very finest addition to this class of plants found in many a year. The blooms are of the very largest size, of pure snow-white.

Price, 2 yr. Bushes, 18 to 24 in., 60c each, 2 for 70 cents.

**HEDGE OF HYDRANGEA ARBORESCENS
GRANDIFLORA (HILLS OF SNOW)**

Select Varieties of 2 Year Rose Bushes

PAUL NEYRON ROSE

La France—Rich satiny peach, changing to deep rose; large and full. A constant bloomer.
Magna Charta—Pink and carmine; very large and full; a profuse bloomer. Fragrant. Free grower.

Frau Karl Druschki (Snow Queen)—A new rose of great merit. There is nothing in white roses quite as fine as this. Pure white, large and of elegant form.

Coquette des Alps—White, slightly shaded with carmine; strong grower and a great favorite.

Marshall P. Wilder—Bright cherry carmine; very fragrant.

Baron de Bonstetten—Flowers large and very double; color rich, dark red, passing to deep velvety maroon. Very fragrant.

Clio—New. The perfection in Hybrid Perpetuals. Of delicate satin blush with a little deeper center. Large, well shaped and very double. Strong, robust, hardy and prolific. A jewel.

Blanche Robert—Pure white, large and full, buds very beautiful. A strong grower and a desirable variety.

Alfred Colomb—Very large and full. Brilliant carmine crimson; extremely fragrant. A free grower.

American Beauty—Very large and double. Of globular shape. Deep pink, shaded with carmine. Fragrance exquisite.

Anne de Diesbach—Very large, brilliant crimson; fragrant, vigorous.

Paul Neyron—The largest of all. Deep rose color. A free bloomer and vigorous grower.

Mrs. J. Laing—Very free flowering; commences early and continues to bloom profusely until fall. Of delicate pink color.

Dorothy Perkins—Perfectly hardy; flowers of large size for this class of rose, usually about one and one-half inches across; are borne in clusters from ten to thirty and are very double; the petals are very prettily rolled back and crinkled. Color beautiful, clear shell pink.

Crimson Rambler—A climbing rose of unusual attractions. Very hardy, having withstood 10 degrees below zero without covering. Vigorous in growth, having grown 8 to 10 feet in a season. Produces a profusion of blossoms, having been known to produce 300 blossoms on one shoot. The Crimson Rambler is especially adapted for covering trellises.

Red Baby Rambler—A dwarf (bush) form of Crimson Rambler, and furthermore, ever-blooming. Will bloom continuously throughout the summer if planted out-of-doors.

PRICE FOR ALL VARIETIES OF ROSE BUSHES

Strong 2 Year Bushes, 60 cents each, 2 for 70 cents.

If sent by mail add 3 cents each to cover cost of mailing.

Ornamental Trees

CATALPA BUNGEII

Catalpa Bungeii, (Umbrella Tree). Perfectly hardy and flourishes in almost all soils and climates with an umbrella-shaped top without pruning.

Price for Catalpa Bungeii 2 Year Heads

4 to 5 ft. trees, \$1.50 each, 10 for \$13.50.

5 to 6 ft. trees, \$1.75 each, 10 for \$15.00.

6 to 8 ft. trees, \$2.00 each, 10 for \$17.50.

Lombardy Poplar—This is an old favorite. Well known and remarkable for its erect, rapid growth, and tall, spiral form. Indispensable in landscape gardening, to break the ordinary and monotonous outlines of most other trees.

Price	Each	Per 10	Per 100
5-6 ft.	\$.45	\$4.00	\$30.00
6-8 ft.	.70	6.50	50.00
8-10 ft.	1.00	9.00	65.00

Poplar, Carolina—A remarkably rapid, luxuriant grower. Very large leaves, very glossy, deep green. Has the advantage over other shade trees in that it will grow in any kind of soil and will thrive in places where others will fail to live. For a quick-growing shade tree there is none that equals the Carolina Poplar. Also useful for planting as a screen to hide unsightly buildings or as a windbreak for orchard or garden plot.

Price	Each	Per 10	Per 100
5-6 ft.	\$.40	\$3.50	\$25.00
6-8 ft.	.65	6.00	35.00
8-10 ft.	.75	7.00	50.00

Catalpa Speciosa—Fragrant white flowers in July. Open irregular growth, large heart-shaped leaves.

Price, 6 to 8 ft., \$1.00 each; 8 to 10 ft., \$1.50 each.

Maple, Silver Leaf. A rapid growing maple of spreading habits, excellent for sandy soil. Foliage silvery on under side.

Price, 4 to 6 Feet, 50 cents each; 10 for \$4.50.

Price, 6 to 8 Feet, \$1.00 each; 10 for \$9.00.

Price, 8 to 10 Feet, \$1.50 each; 10 for \$12.00.

Maple, Ash Leaf. Fast growing, has spreading habit. Leaves light green.

Price, 5 to 6 Feet, 75 cents each; 10 for \$5.00.

Price, 6 to 8 Feet, \$1.00 each; 10 for \$7.50.

Price, 8 to 10 Feet, \$1.25 each; 10 for \$10.00.

Maple, Norway. Round headed tree with dark green foliage. Largely used for street and shade.

Price, 6 to 8 Feet, \$1.75 each; 10 for \$15.00.

Price, 8 to 10 Feet, \$2.50 each; 10 for \$20.00.

Maple, Sugar, Hard. Straight and spreading, dark green leaves turning to scarlet in the autumn.

Price, 6 to 8 Feet, \$2.50 each; 10 for \$20.00.

Price, 8 to 10 Feet, \$3.50 each.

Maple, Sycamore. Horizontal and spreading, with round head. Bark is smooth. Leaves are large.

Price, 6 to 8 Feet, \$2.50 each; 10 for \$20.00.

BECHTEL'S DOUBLE FLOWERING CRAB

Ornamental Trees

**MOUNTAIN ASH
(AMERICAN)**

Mountain Ash, American—White flowers in June, followed by very attractive scarlet berries that hang until late in fall.
Price, 6 to 8 ft., \$1.50 each.

Hydrangea, P. G., Tree Form—Never fails to bloom. Very hardy, enduring the severest winters outdoors without protection. Will grow anywhere and in any soil.
Price, 3 to 4 ft., \$1.25 each; 10 for \$10.00.
Price, 2 to 3 ft., \$1.00 each; 10 for \$9.00.

Mulberry, Russian. A very hardy rapid growing tree. Fruit a medium size and a great bearer.
Price, 6 to 8 ft., \$1.25 each.

Prunus Pissardi, Purple-Leaf Plum—The finest purple leaf, small tree or shrub.

Price, 4 to 5 ft., \$1.00 each; 10 for \$7.50.

Almonds—Beautiful, showy, double rose colored flowers in May.

Price, 2 to 3 ft., \$1.00 each; 10 for \$7.50.

Prunus Triloba, Double Flowering Plum—A highly interesting and desirable addition to hardy shrubs. Flowers double delicate pink.

Price, 3 to 4 ft, trees, \$1.00 each.

Peach, Double Red and Double White Flowering—Has beautiful double flowers in May.

Price, 2 to 3 ft., \$1.00 each.

**WHITE FLOWERING
HORSECHESTNUT**

Horse Chestnut (White Flowering)—Has white flowers in May. Very hardy.
Price, 4 to 5 ft., \$2.50 each; 10 for \$20.00.
Price, 5 to 6 ft., \$3.50 each.

Crab, Bechtel's Flowering—Especially adapted for massing. Pink rose-like flowers. A very attractive flowering shrub.
Price, 2 to 3 ft., \$1.00 each.

Birch, Cut Leaf, (Weeping)—White bark, drooping branches, finely cut foliage.
Price, 4 to 5 ft., \$3.00 each.

Catalpa Speciosa—Fragrant white flowers in July. Open irregular growth, large heart shaped leaves.
Price, 8 to 10 ft., \$1.50 each.

Propagated Where the Best Trees Grow

Fruit and Nut Trees of Largest Size

We Can Supply All Varieties Listed at the Following Prices.

PEACH TREES

Our peach seed is all gathered for us in the mountains of Tennessee and North Carolina where disease is unknown. Our trees are hardy and well matured and will stand our cold northern winters. They are far superior to the southern grown trees usually handled by some retail firms.

1 YEAR TREES		Each	10	100
Extra Size	5 to 6 Feet	XXX .50	\$4.75	\$25.00

Notice

Before placing orders elsewhere for the large size fruit trees quoted above we would suggest that you send list of varieties for our special quotations, as there are many varieties that we have in surplus and are able to give a much lower price on in quantities.

Satisfied Customers Everywhere Endorse Our Policy of Fair Dealing

MANY THOUSAND PLANTERS have taken advantage of our service to increase their incomes and improve their home grounds. And our organization constantly growing in importance and becoming more efficient, has attracted their attention. We have patrons who swear by us in every State. Yet most of them know us only by correspondence, for we have never seen them in person.

Warwick, N. Y., Feb. 13, 1928.

Pomona United Nurseries,
Dansville, N. Y.

Received your catalogue and it is just what I have been waiting for, as I want to put in more trees and shrubs this Spring.

I receive several catalogues every Spring but I always wait for yours before ordering, as I can save money by waiting and your trees have all done fine with me, so why pay twice the money for trees, when you do not have to.

The trees that I bought of you ten years ago have paid for themselves several times over.

Very truly yours,
ROE W. WHEELER.

Pinegrove, Pa., Feb. 10, 1928.

Pomona United Nurseries,
Dansville, N. Y.

Ten years ago I received fruit trees and grape vines from you which are fine and bear fruit true to name. I am a satisfied customer.

Yours truly,
WM. R. DOHNER.

Ware, Mass., April 28, 1928.

Pomona United Nurseries,
Dansville, N. Y.

My trees arrived today, as fine a lot of trees I ever saw. Well rotted and well branched. Thank you very much for your fine treatment.

Yours truly,
A. SMITH.

Maywood, N. J., Feb. 12, 1928.

F. W. Wells, Dansville, N. Y.

Have had very good returns from trees received from you some years ago. Please send catalogue.

Yours truly,
E. PETERMAN.

Bryant, Indiana, March 8, 1928.

Pomona United Nurseries,
Dansville, N. Y.

I am sending you an order for trees in the 10¢ sale catalogue. I have bought trees the last twelve years of you, and they have all been true to name, and have all grown and done fine. I have been well pleased with everything I have got.

Very truly yours,
S. R. PYLE.

Greencastle, Pa., March 5th, 1928.

Pomona United Nurseries,
Dansville, N. Y.

I wish to say that I was really more than pleased with the trees I bought of you last year. They were better trees than some I paid double the price of yours. Here's wishing you a world of good luck.

Yours truly,
M. E. KLEBUSCH.

Randlett, Utah, Feb. 6, 1928.

Pomona United Nurseries,
Dansville, N. Y.

Thirteen years ago we planted a family orchard from your Nurseries in Kansas. The trees did fine and we like them so well, that's why we are ordering from you now.

Very truly yours,
H. STEVENS.

Sanantoga, Pa., Feb. 8, 1928.

Pomona United Nurseries,
Dansville, N. Y.

We bought quite a large order from you several years ago. Will say quality and true to name cannot be beat.

Enclosed please find our order for Spring shipment.

Respectfully,
THOS. J. MINSHALL.

POMONA UNITED NURSERIES, DANSVILLE, N.Y.

Pomona Evergreens at Reduced Prices

Add Dignity to Summer and Colorful Life to Winter Scenes

NORWAY SPRUCE

Norway Spruce—A lofty, elegant tree of perfect pyramidal habit, remarkably elegant and rich. As it gets age, has fine, graceful pendulous branches. It is exceedingly picturesque and beautiful. Very popular and should be largely planted. One of the best evergreens for hedges. **Price, 15 to 18 in., 50 cents each; 10 for \$4.50. Price, 18 to 24 in., 75c each; 10 for \$6.50. Price, 2 to 3 feet, \$1.00 each; 10 for \$9.00.**

NORWAY SPRUCE

For Window and Porch Boxes

Your window and porch boxes, which have been so colorful all summer, can continue to be cheery and beautiful all through the winter months at a surprisingly little expense. Plant these fresh green Norway Spruce, 12 to 15 in., in your flower boxes, about one foot apart and they will present a handsome, striking appearance. The cost is actually lower than summer flowers and if you wish, you can transplant them to your lawn in the spring and they will soon develop into real Specimen Evergreens. **Price for window box Norway Spruce, 12 to 15 inches, 45c, 10 for \$4.00.**

All evergreens are dug with ball of earth and roots securely wrapped in burlap.

American Arbor Vitae—Much used for hedges, screens, singly on lawns, and in tubs for porches, etc. It is a handsome little tree, and if allowed to grow naturally will be quite tall and pyramidal-shaped. **Price, 15 to 18 in., 75 cents each; 10 for \$6.00. Price, 18 to 24 in., \$1.25 each; 10 for \$10.00. Price, 2 to 3 feet, \$1.50 each; 10 for \$12.00.**

Pyramidal Arbor Vitae—One of the most beautiful varieties, very erect and regular in form, resembling the Irish Juniper. **Price, 18 to 24 in., \$2.50 each; 10 for \$20.00.**

Engelmanii Spruce—A splendid Evergreen for specimen planting. Conical pyramidal form, foliage of a blue tint. Resembles Colorado Blue Spruce. **Price, 15 to 18 in., \$1.00 each; 10 for \$9.00.**

Douglassi Fir—Leaves light green above, glaucous below. Conical form, branches spread light and graceful. A rapid grower. **Price, 15 to 18 in., \$1.25 each; 10 for \$10.00.**

Colorado Blue Spruce—Unquestionably the most beautiful of all evergreens, beyond words of description. Its foliage of rich, glistening blue, its stately and symmetrical growth are admired by all. You will be justly proud of having one or more of these beautiful trees on your grounds. Unexcelled for specimen plantings, which will add distinction to your home. **Price, 15 to 18 in., \$2.00 each; 10 for \$15.00.**

COLORADO BLUE SPRUCE

An Excellent Evergreen for Specimen Planting
